

Broome County Agricultural Districts: Eight-Year Review Report

Broome County Agricultural and
Farmland Protection Board

2021

Introduction

This report is part of a periodic review of Broome County Agricultural District #5 as required by [Article 25AA – Agricultural Districts](#), of the New York State Agriculture and Markets Law. As part of this eight-year review, the Broome County Legislature directs the County’s Agriculture and Farmland Protection Board to prepare a report during the eight-year review process.

Background

An agricultural district is a geographic area that consists predominately of viable agricultural land. Inclusion of farmland within the district gives certain benefits and protections to farm operations to ensure that they remain economically viable. Districts are reviewed every eight years. After the preparation of a report by the Agriculture and Farmland Protection Board and a public hearing, the district may be continued, terminated or modified. During the review process, land may be added or removed from the district.

Agricultural District #5 was created in 1978 and extends across the northern portion of Broome County. The District covers most of the towns of Lisle, Triangle, Nanticoke, and Barker and includes parcels in the town of Maine and the village of Lisle. This is the fourth eight-year review for this district. District #5 is one of three agricultural districts in Broome County; the others are District #3 and District #4. Agricultural District #3 was created in 1974 and it is entirely within the Town of Sanford. Created in 1976, Agricultural District #4, encompasses acreage in the towns of Barker, Binghamton, Chenango, Colesville, Conklin, Fenton, Kirkwood, Maine, Union, Sanford, Vestal, and Windsor.

What are some of the benefits of being in an agricultural district?

Protections from Nuisance

Lawsuits for farms using sound agricultural practices as determined by New York State Ag & Markets.

Limits Unreasonable

Restrictions from local governments when exercising their powers to enact and administer comprehensive plans, local laws, ordinances, rules and/or regulations.

Ensures Greater Consideration

from State and local governments when evaluating the impacts of public projects and actions, including eminent domain, within an agricultural district.

Engaging Farmers in Local

Decisions by allowing towns within an agricultural district to reserve at least one planning board seat to a member of the agricultural community.

Eight-Year Review Process

Broome County conducted this eight-year review in accordance with [Section 303-A](#) and [Section 303-C](#) of AGM Law.

30-Day Notice

The following efforts were made to provide notice of the eight-year review including: publishing a notice in the Press & Sun Bulletin newspaper; posting notice of the review on the County's and CCE Broome's websites; posting notices of the review in at least five locations throughout the district; and providing notices to the municipalities which encompass the district. In consideration of the proposed consolidation of the County's agricultural districts, notices were also mailed to property owners within the agricultural districts.

The 30-Day notice provided background on the eight-year review process, identified the municipalities where the district is found, quantified the estimated acreage of land within the district, provided a link and location where the public could inspect the district maps, and identified a contact person who could answer questions about the notice and the process. In addition, the notice also included a link to complete the Agricultural District Review Worksheet, which provided landowners with an opportunity to inform the County of their agricultural operations and propose modifications to the district. In response to the 30-Day Notice, there were two (2) landowner requests to be removed from the district and four (4) landowner requests to be added to the agricultural district.

Public Outreach

During the month of August 2021, Broome County Planning and CCE Broome hosted three informational meetings regarding the agricultural district review process. Approximately twenty (20) people attended and had the opportunity to ask questions, request assistance with the Agricultural District Review Worksheet, and learn more about the agricultural districts and eight-year review process. In addition to these outreach efforts, CCE Broome replied directly to multiple inquiries via phone and email.

Identifying Parcels for Removal from the District

During the eight-year review period, parcels may be added or removed from the agricultural districts. Broome County took this opportunity to complete an in-depth review of the districts and determine which, if any, properties should be considered for removal. The purpose of this analysis was to identify parcels that are no longer being used for agricultural purposes and/or do not include predominantly viable agricultural land. The agricultural districts review was completed by the Broome County Planning Department with the assistance of Broome County GIS, CCE Broome, Broome County Real Property, and the Agricultural Farmland Protection Board.

During the Fall of 2021, a GIS analysis of the agricultural districts was conducted to determine which parcels were no longer being used for agricultural purposes. The chosen methodology involved selecting parcels of any size whose land use classification was either: commercial,

community services, industrial, mining, mobile home park, multi-residential, public services, recreational, or wild/forested. Using this methodology, 153 parcels covering 5,149.83 acres were identified as properties to consider for removal from the agricultural districts.

After completing the first-pass analysis described above, a more detailed review of the parcels under consideration for removal was completed. Each parcel was analyzed further in respect to their vulnerability to development, forest lands, containing prime farmland soils, and researching the property to determine if the operation supports agriculture purposes. After further analysis, 125 parcels covering 2,655.04 acres were identified as properties to consider for removal from the agricultural districts. Broome County mailed letters to the property owners and provided them with an opportunity to request to remain in the district. In response to the letter, the property owners of 17 properties contacted CCE Broome and requested to remain in the district. Taking the various analysis factors and landowner feedback into consideration, a total of 74 parcels covering 775.32 acres were identified for removal from the agricultural district. This information was used to develop a final list of proposed modifications to the agricultural district.

Adopting Modifications

The Agricultural Farmland Protection Board reviewed the proposed modifications and approved a final draft of district modifications (Appendix B) for submittal to the Broome County Legislature. The proposed agricultural districts modifications are summarized in the Report Findings and Recommendations section of this report. The County will review the report, hold a public hearing regarding the modifications, make a finding, prepare a resolution to accept the modifications, and complete a State Environmental Quality Review for the action. The County will notify by mail each municipality and landowner affected by the proposed modifications and subject to consolidation. The public hearing notice will indicate the public hearing time, date, and location, a description of the district, any proposed modifications and recommendations, and will identify the district into which the existing districts will be consolidated and the new anniversary date for the consolidated district.

Agricultural District Annual Enrollment

Broome County's Annual Enrollment Period for viable farmland to be considered for inclusion in an agricultural district takes place each year during the month of December. During this time, landowners can submit a "Landowner Request for Inclusion" form to CCE Broome. In December 2021, CCE Broome received inclusion requests from ten (10) landowners totaling 354.97 acres. These requests are not reflected in the proposed modifications for this eight-year review. Rather, the Broome County Agricultural Farmland Protection Board and the Broome County Legislature will follow separate procedures outlined in [Section 303-B](#) to carry out the 2021 Annual Enrollment Period process.

Status of Agriculture

In conducting this eight-year review, the Broome County Agricultural and Farmland Protection Board prepared a report concerning the following:

The nature and status of farming and farm resources within such district, including the total number of acres of land and the total number of acres of land in farm operations in the district

The following information was derived from the Broome County Agricultural Economic Development Plan (2019), the USDA Agricultural Census (2017), and other local resources.

Broome County is located along the southern border of New York State in the Southern Tier Region and is bordered by Tioga, Cortland, Chenango, and Delaware Counties, as well as the State of Pennsylvania to the south. Broome County is approximately 452,000 acres in size which covers 24 municipalities and includes frontage on four rivers including the Chenango, Delaware, Susquehanna, and Tioughnioga rivers. An estimated 18% (79,676 acres) of the county's land area is used for agricultural purposes. Farmland can be found in each of the 16 towns, with primary clusters in northern and eastern portions of the county.

The USDA Agricultural Census for Broome County (2017) estimates 494 farms, covering 62,467 acres, with an average farm size of 126 acres. Each of these figures reveal a slight decrease in farms and farmland/size from the previous agricultural census completed in 2012. Cropland and woodland remain the primary uses in the county and account for 82% of land in farms.

Despite pastureland comprising a small portion of the county's agricultural land (11%), "Livestock, poultry, and products" industry produced about 68% of the county's agricultural sales, including dairy products which produced about \$19 million, or 59% of the county's total sales. For comparison, the second highest sales were from "other crops and hay" activities which produced about \$4 million, or about 13% of the county's total sales.

The complete 2017 USDA Agricultural Census for Broome County Profile can be found in Appendix A.

The extent to which the district has achieved its original objectives;

The goal of the Agricultural District program is to protect and promote the availability of land for a variety of farming purposes. The Broome County Agriculture and Farmland Protection Board reviews all applications for inclusion in an agricultural district to ensure that they are viable farmland. Local Agricultural Districts were part of a broad range of effort to enhance and encourage farming in Broome County.

Broome County has a long history of farming and it is recognized as a positive asset to our community and identity. Nine major agencies including Broome County, CCE Broome, Broome County Soil & Water Conservation District, Farm Bureau, Broome County IDA/LDC – "The Agency", Broome County Agricultural Task Force, Upper Susquehanna Coalition, Food and

Health Network of the Southern Tier (FaHN), and USDA Regional Service Centers (Cortland and Binghamton) administer a variety of programs and services that support the County's goals and objectives related to enhancing the viability of agriculture throughout the county.

Broome County's vision for agriculture states "In the coming decade, Broome County – the birthplace of the Farm Bureau – will be renowned in the Southern Tier and beyond for the strength of economic connections between farm and fork. Our vibrant and diverse producers will utilize innovative means to reach informed consumers, resulting in a robust agricultural sector and improved quality of life throughout the county".

The 2017 USDA Agricultural Census shows the following trends for agriculture in Broome County between 2012 and 2017 (dollar amounts are adjusted for inflation):

- The total market value of all agricultural products sold is \$32,087,000 (2017)
- The average market value of all agricultural products sold per farm is \$64,954, an 11% increase
- There was a 10% increase in the average value of farmland per acre
- There was a 138% increase in the average net cash income of operations
- There was an 87% increase in the average income from farm related sources
- There was an increase in the number of vegetable crop farms (17%) and acres harvested (7%), along with signs a greater diversity of vegetables being grown in the county
- There was an increase in the number of farms (113%) and the acres (161%) used for orchards
- There was an increase in the number of Christmas tree farms (32%), acres in production (61%), and the number of trees cut (94%)
- On-farm packaging facilities grew from 6 to 12, an increase of 100%
- Increased diversity of farm operators:
 - There was a 92% increase in the number of female principal operators
 - Where there were previously none reported, there are now six (6) producers of Hispanic, Latino, or Spanish ethnicity who farm 514 acres and one (1) Asian producer (acres not reported)
 - There are 111 farms, with 173 new and beginning producers, who farm 13,984 acres

One recommendation of the Agriculture Economic Development Plan was to provide more municipal training to support agriculture. In 2019, Broome County Planning Coordinated a day-long training on agriculture for planning and zoning board members, code officers, elected officials and local planners. Topics included “Agricultural Assessment Program & Farm Building Exemptions”, “Cannabis in New York: Legal Update” and “Local Planning Issues and Planning for Agriculture”. Speakers were from the New York State Department of Taxation and Finance, local law firm Coughlin and Gerhart, and Broome County Planning. In 2020, Broome County and CCE Broome held a virtual municipal training that addressed the topic of “Renewable Energy Leasing on Agricultural Lands” with speakers from Coughlin & Gerhart, NYS Ag & Markets, and NYS Farm Bureau.

In addition to municipal training events, CCE Broome organizes and hosts a variety of workshops and trainings targeted at farmers, members of the agricultural community, and others who may be interested in learning more about agriculture. In 2021, they held more than 15 events to help support a more viable agricultural community in Broome County.

Inclusion in an agricultural district also means that development projects within 500 feet of a farm in an agricultural district are subject to review by County Planning under Section 239 I & m of General Municipal Law. Broome County Planning provides mapping on www.bcgis.com so that local planning and zoning boards always have the information they need to refer projects that may impact farms in an agricultural district to county planning. This helps ensure that all farms in agricultural districts receive protection from unsuitable development through the 239-review process.

The extent to which county and local comprehensive plans, policies and objectives are consistent with and support the district;

The 2013 Broome County Countywide Comprehensive Plan, calls on the County to, “Promote, protect, and enhance agriculture through the Agricultural District program, continuing to involve the farming community in decision making, and support of the Greater Binghamton Farmer's Market”.

At the local level, Broome County Planning prepares the municipal plans for many of the rural towns. This work is done under contract with each community. The following is a list of the towns that Broome County Planning has prepared comprehensive plans for along with the agriculture related goal or action item:

<u>Town</u>	<u>Goal/Action Item</u>
Town of Lisle	Protect Agriculture
Town of Triangle	Protect and Promote Agriculture
Town of Maine	Protect Agriculture, Open Space, and Natural Resources
Town of Fenton	Various action items to support agriculture
Town of Binghamton	Protect and Manage Natural Resources and Maintain the Rural Character of the Town
Town of Colesville	Improving Agriculture
Town of Kirkwood	Protecting Farms and Agriculture

The 2019 Agriculture Economic Development Plan has as one of its goals, “Prioritize Agricultural Uses on Broome County’s Most Fertile and Productive Lands” with the associated action, “Work with municipal boards and staff to update and revise their comprehensive plans and land use regulations to provide better support for agricultural uses in appropriate areas”.

The degree of coordination between local laws, ordinances, rules and regulations that apply to farm operations in such district and their influence on farming; and

The Broome County Agricultural Economic Development Plan (2019) includes a “Benchmark Analysis of Local Land Use Tools” which highlights various regulatory tools that support the agricultural industry and the preservation of farmland. This analysis can help communities better assess and understand what steps they could take to ensure farming remains viable throughout the county. Going forward, Broome County Planning will incorporate this information into town comprehensive plans. This will ensure that local comprehensive plans are remain consistent with and support the goals of the agricultural district program.

As part of the application process for inclusion in an agricultural district, Broome County Planning reviews the local zoning of each farm operation. The Director of Planning sits on the Agriculture and Farmland Protection Board. When reviewing applications by farm operations for agricultural district additions, the Agriculture and Farmland Protection Board only recommends inclusion of farm operations that are consistent with local zoning. As a result, there is a high degree of coordination between local laws and the agricultural district program.

Recommendations to continue, terminate or modify such district.

The Agricultural and Farmland Protection Board recommends the following:

a) The parcels currently within Districts 3 and 4 should be consolidated into 5.

Continued maintenance of three separate Agricultural Districts has become an administrative burden for the agencies which carry out the program. Planning Department staff struggles to keep accurate records for which parcels are within each district. Adding all parcels in Districts #3 and #4 into Agricultural District #5 would streamline the review process and make the reporting less burdensome for farmers who own land in multiple districts.

Consolidated District	Current Districts	Anniversary Date
District 5	Districts 3, 4, and 5	January 11, 2027

b) Agricultural District #5 should be continued and modified.

Agricultural District #5 provides important protections for viable agricultural land within Broome County. Agricultural District 5 is part of a comprehensive program to protect and enhance agriculture in Broome County. For these reasons, Agricultural District #5 should be continued.

c) The parcels identified in Appendix B should be modified by being consolidated, added or removed to/from the district.

The 2021 Review Process resulted in modifications that propose a 0.3% decrease in the countywide agricultural district acreage. The modifications are summarized below.

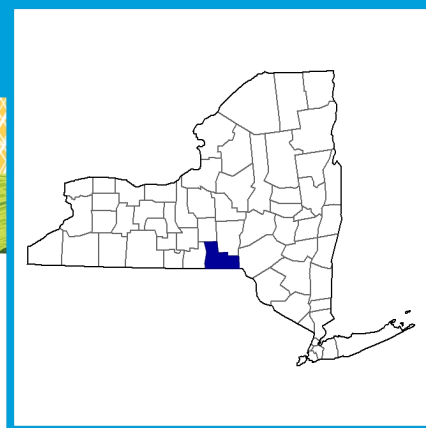

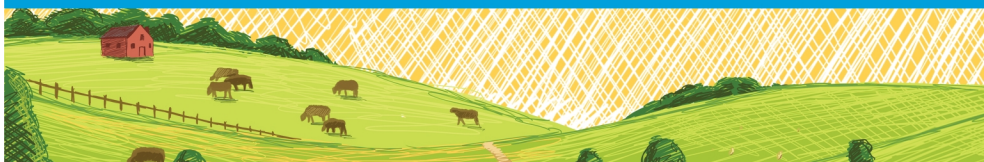

**Broome County Agricultural District 5
Eight-Year Review Proposed Modifications**
