Short Environmental Assessment Form
Part 2 - Impact Assessment

Part 2 is to be completed by the Lead Agency.

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

	No, or small impact may occur	Moderate to large impact may occur
1. Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
2. Will the proposed action result in a change in the use or intensity of use of land?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
3. Will the proposed action impair the character or quality of the existing community?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
4. Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
7. Will the proposed action impact existing:		
a. public / private water supplies?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b. public / private wastewater treatment utilities?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
8. Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
9. Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
10. Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
11. Will the proposed action create a hazard to environmental resources or human health?	<input checked="" type="checkbox"/>	<input type="checkbox"/>

**Short Environmental Assessment Form
Part 3 Determination of Significance**

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

Part 1 Explanations and additional information:

#2. The project may require a Village of Endicott Project Approval, as well as a NYDEC Permit.

#12b. The project location and scope were reviewed by the NY State Historic Preservation Office (SHPO). The SHPO provided a finding of no impact in response to this review.

#15. The project site may be in the vicinity of the following protected species: Bald Eagle, Monarch Butterfly, Brook Floater, and Northern Long-eared Bat. To minimize any potential adverse impacts to the habitats of these species, the project generally aligns with existing disturbances and an existing utility easement. Broome County has contacted DEC Wildlife and Heritage for their consideration and will follow any recommendations resulting from their review of the project.

#16. The project is located within the AE Zone of the 100-year flood plain. Broome County has contacted the NYSDEC for their consideration and will follow any recommendations resulting from their review of the project.

#17. Disturbance will be less than one acre and will not require development of a SWPPP (Trail 18,055 sqft., trail, and playground area 7,722 sqft.). Stormwater treatment will be localized to the area of disturbance.

Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

Dear Stephanie Brewer:

Thank you for requesting the comments of the Office of Parks, Recreation and Historic Preservation (OPRHP). We have reviewed the project in accordance with the New York State Historic Preservation Act of 1980 (Section 14.09 of the New York Parks, Recreation and Historic Preservation Law). These comments are those of the OPRHP and relate only to Historic/Cultural resources. They do not include potential environmental impacts to New York State Parkland that may be involved in or near your project. Such impacts must be considered as part of the environmental review of the project pursuant to the State Environmental Quality Review Act (New York Environmental Conservation Law Article 8) and its implementing regulations (6 NYCRR Part 617).

Based upon this review, it is the opinion of OPRHP that no properties, including archaeological and/or historic resources, listed in or eligible for the New York State and National Registers of Historic Places will be impacted by this project.

If further correspondence is required regarding this project, please be sure to refer to the OPRHP Project Review (PR) number noted above.

Sincerely,

R. Daniel Mackay

Deputy Commissioner for Historic Preservation
Division for Historic Preservation

Subject: List of threatened and endangered species that may occur in your proposed project location or may be affected by your proposed project

To Whom It May Concern:

The enclosed species list identifies threatened, endangered, proposed and candidate species, as well as proposed and final designated critical habitat, that may occur within the boundary of your proposed project and/or may be affected by your proposed project. The species list fulfills the requirements of the U.S. Fish and Wildlife Service (Service) under section 7(c) of the Endangered Species Act (Act) of 1973, as amended (16 U.S.C. 1531 *et seq.*).

New information based on updated surveys, changes in the abundance and distribution of species, changed habitat conditions, or other factors could change this list. Please feel free to contact us if you need more current information or assistance regarding the potential impacts to federally proposed, listed, and candidate species and federally designated and proposed critical habitat. Please note that under 50 CFR 402.12(e) of the regulations implementing section 7 of the Act, the accuracy of this species list should be verified after 90 days. This verification can be completed formally or informally as desired. The Service recommends that verification be completed by visiting the ECOS-IPaC website at regular intervals during project planning and implementation for updates to species lists and information. An updated list may be requested through the ECOS-IPaC system by completing the same process used to receive the enclosed list.

The purpose of the Act is to provide a means whereby threatened and endangered species and the ecosystems upon which they depend may be conserved. Under sections 7(a)(1) and 7(a)(2) of the Act and its implementing regulations (50 CFR 402 *et seq.*), Federal agencies are required to utilize their authorities to carry out programs for the conservation of threatened and endangered species and to determine whether projects may affect threatened and endangered species and/or designated critical habitat.

A Biological Assessment is required for construction projects (or other undertakings having similar physical impacts) that are major Federal actions significantly affecting the quality of the human environment as defined in the National Environmental Policy Act (42 U.S.C. 4332(2))

(c)). For projects other than major construction activities, the Service suggests that a biological evaluation similar to a Biological Assessment be prepared to determine whether the project may affect listed or proposed species and/or designated or proposed critical habitat. Recommended contents of a Biological Assessment are described at 50 CFR 402.12.

If a Federal agency determines, based on the Biological Assessment or biological evaluation, that listed species and/or designated critical habitat may be affected by the proposed project, the agency is required to consult with the Service pursuant to 50 CFR 402. In addition, the Service recommends that candidate species, proposed species and proposed critical habitat be addressed within the consultation. More information on the regulations and procedures for section 7 consultation, including the role of permit or license applicants, can be found in the "Endangered Species Consultation Handbook" at:

<http://www.fws.gov/endangered/esa-library/pdf/TOC-GLOS.PDF>

Migratory Birds: In addition to responsibilities to protect threatened and endangered species under the Endangered Species Act (ESA), there are additional responsibilities under the Migratory Bird Treaty Act (MBTA) and the Bald and Golden Eagle Protection Act (BGEPA) to protect native birds from project-related impacts. Any activity, intentional or unintentional, resulting in take of migratory birds, including eagles, is prohibited unless otherwise permitted by the U.S. Fish and Wildlife Service (50 C.F.R. Sec. 10.12 and 16 U.S.C. Sec. 668(a)). For more information regarding these Acts see <https://www.fws.gov/birds/policies-and-regulations.php>.

The MBTA has no provision for allowing take of migratory birds that may be unintentionally killed or injured by otherwise lawful activities. It is the responsibility of the project proponent to comply with these Acts by identifying potential impacts to migratory birds and eagles within applicable NEPA documents (when there is a federal nexus) or a Bird/Eagle Conservation Plan (when there is no federal nexus). Proponents should implement conservation measures to avoid or minimize the production of project-related stressors or minimize the exposure of birds and their resources to the project-related stressors. For more information on avian stressors and recommended conservation measures see <https://www.fws.gov/birds/bird-enthusiasts/threats-to-birds.php>.

In addition to MBTA and BGEPA, Executive Order 13186: *Responsibilities of Federal Agencies to Protect Migratory Birds*, obligates all Federal agencies that engage in or authorize activities that might affect migratory birds, to minimize those effects and encourage conservation measures that will improve bird populations. Executive Order 13186 provides for the protection of both migratory birds and migratory bird habitat. For information regarding the implementation of Executive Order 13186, please visit <https://www.fws.gov/birds/policies-and-regulations/executive-orders/e0-13186.php>.

We appreciate your concern for threatened and endangered species. The Service encourages Federal agencies to include conservation of threatened and endangered species into their project planning to further the purposes of the Act. **Please include the Consultation Code in the header of this letter with any request for consultation or correspondence about your project that you submit to our office.**

OFFICIAL SPECIES LIST

This list is provided pursuant to Section 7 of the Endangered Species Act, and fulfills the requirement for Federal agencies to "request of the Secretary of the Interior information whether any species which is listed or proposed to be listed may be present in the area of a proposed action".

PROJECT SUMMARY

Project Code: 2023-0048500
Project Name: Grippen Park Improvements and Chugnut Trail extension
Project Type: Recreation - New Construction
Project Description: This project will construct a segment of the Chugnut Trail, connecting from Mercereau Park (Davis Avenue) west through Grippen Park. Additionally, within Grippen Park, improvements will be made to expand the playground area, improve the trailhead parking lot, renovate the existing building, and provide way-finding signage.

Total approximate disturbance is 2.154 acres.

Project Location:

The approximate location of the project can be viewed in Google Maps: <https://www.google.com/maps/@42.088199,-76.07039259554924,14z>

Counties: Broome County, New York

ENDANGERED SPECIES ACT SPECIES

There is a total of 1 threatened, endangered, or candidate species on this species list.

Species on this list should be considered in an effects analysis for your project and could include species that exist in another geographic area. For example, certain fish may appear on the species list because a project could affect downstream species.

IPaC does not display listed species or critical habitats under the sole jurisdiction of NOAA Fisheries¹, as USFWS does not have the authority to speak on behalf of NOAA and the Department of Commerce.

See the "Critical habitats" section below for those critical habitats that lie wholly or partially within your project area under this office's jurisdiction. Please contact the designated FWS office if you have questions.

Dear Ms. Dailey:

The New York State Department of Environmental Conservation (DEC) received the submitted information for the above referenced project on February 22, 2023. According to the provided materials, the project consists of the extension and improvement of the Chugnut Trail located near 607 S Grippen Ave, Endicott, NY 13760 (Grippen Park).

Based upon our review of your inquiry, DEC offers the following comments:

PROTECTION OF WATERS

The Susquehanna River (NYS Water Index #: SR), a Class A navigable waterbody, is within close proximity to the project site.

A Protection of Waters permit is required to physically disturb the bed or banks (up to 50 feet from stream) of any streams identified as "protected." A permit is not required to disturb the bed or banks of "non-protected" streams. A Protection of Waters permit is required for any excavation or filling below the Mean High-Water Level (MHWL) of any waterbodies and contiguous wetlands identified as "navigable." For more information, please visit <https://www.dec.ny.gov/permits/6554.html>.

Although a Protection of Waters permit does not appear to be required, please note, however, the project sponsor is responsible for ensuring that work shall not pollute any potential nearby stream or waterbody. Care shall be taken to prevent contamination of any stream or waterbody by silt, sediment, fuels, solvents, lubricants, or any other pollutant associated with the project.

FRESHWATER WETLANDS

The project site is not within a New York State protected Freshwater Wetland. However, please contact your town officials and the United States Army Corps of Engineers Auburn Field Office, at (315) 255-8090, for any permitting they might require.

STATE-LISTED SPECIES

DEC has reviewed the State's Natural Heritage records. We have determined that the site (9CRS31) is located within or near record(s) of the following state-listed species: Bald Eagle (*Haliaeetus leucocephalus*).

Please be aware, pursuant to Article 11, Title 5, Section 535 of the Environmental Conservation Law, Threatened and Endangered Species, an "Incidental Take" Permit may be required from the DEC for any project if it is determined that a take of a threatened or endangered species will occur. However, DEC has determined that no adverse impacts to Bald Eagles are anticipated to result from this project. Therefore, an Article 11 Permit is not required for this project. If you have any questions, please contact Bonnie Parton of Wildlife at (315) 635-7017.

The absence of data does not necessarily mean that rare or state-listed species, natural communities or other significant habitats do not exist on or adjacent to the proposed site. Rather, our files currently do not contain information which indicates their presence. For most sites, comprehensive field surveys have not been conducted. We cannot provide a definitive statement on the presence or absence of all rare or state-listed species or significant natural communities. Depending on the nature of the project and the conditions at the project site, further information from on-site surveys or other sources may be required to fully assess impacts on biological resources.

FLOODPLAIN & FLOODWAYS

The project sponsor should contact the local municipality to determine whether the project is in a floodplain or floodway and whether additional jurisdictions are applicable to the proposal. If applicable, the project sponsor must apply for and receive a floodplain development permit that complies with local floodplain development requirements.

This Department is charged with providing technical assistance to local communities in carrying out their responsibilities under the National Flood Insurance Program. Technical questions pertaining to floodplain management and its relation to the National Flood Issuance Program should be directed to Daniel Fuller, Division of Water, at (607) 775-2545 x 107.

STORMWATER DISCHARGES

Soil disturbances of one or more acres of land from construction activities must obtain permit coverage under the NYSDEC SPDES General Permit for Stormwater Discharges from Construction Activities (GP-0-20-001) by submitting a Notice of Intent and developing & implementing a Stormwater Pollution Prevention Plan. Please ensure the Stormwater Pollution Prevention Plan is updated with the proposed changes to the project. For information on stormwater and the general permits, see the DEC website at <http://www.dec.ny.gov/chemical/8468.html>.

As this site is within an MS4 area (Municipal Separate Storm Sewer System), the stormwater plan must be reviewed and accepted by the municipality and the MS-4 Acceptance Form must be submitted to the Department.

CULTURAL RESOURCES

We have reviewed the statewide inventory of archaeological resources maintained by the New York State Museum and the New York State Office of Parks, Recreation, and Historic Preservation. These records indicate that the project is located within an area considered to be sensitive with regard to archaeological resources. For more information, please visit the New York State Office of Historic Preservation website at <http://www.nysparks.com/shpo/>.

Other permits from this Department or other agencies may be required for projects conducted on this property now or in the future. Also, regulations applicable to the location subject to this determination occasionally are revised and you should, therefore, verify the need for permits if your project is delayed or postponed. This determination regarding the need for permits will remain effective for a maximum of one year unless you are otherwise notified. Applications may be downloaded from our website at www.dec.ny.gov under "Programs" then "Division of Environmental Permits."

Please contact this office if you have questions regarding the above information. Thank you.

Sincerely,

Jonathan Cronell

RESOLUTION ISSUING A NEGATIVE DECLARATION OF ENVIRONMENTAL SIGNIFICANCE WITH RESPECT TO THE PROPOSED VETERAN'S RESOURCE CENTER PROJECT FOR THE DEPARTMENT OF PUBLIC WORKS

WHEREAS, the Broome County Legislature, by Resolution 426 of 2022, declared Lead Agency status in the Environmental Review with respect to the proposed Veteran's Resource Center Project for the Department of Public Works, and

WHEREAS, this is a Type 1 Action pursuant to the New York State Environmental Review Act (SEQRA) which requires review, and

WHEREAS, Parts 1 and 2 of SEAF were completed by Broome County to determine the environmental impacts, and it has been determined that there will be no significant adverse impact on the environment resulting from the proposed project, now, therefore, be it

RESOLVED, that this County Legislature hereby finds that the adoption of the proposed Veteran's Resource Center Project for the Department of Public Works will not result in any significant adverse environmental impacts and hereby issues a SEQRA Negative Declaration of Environmental Significance upon the above entitled Action.

Part 2 - Impact Assessment***

Part 2 is to be completed by the Lead Agency.

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

	No, or small impact may occur	Moderate to large impact may occur
1. Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
2. Will the proposed action result in a change in the use or intensity of use of land?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3. Will the proposed action impair the character or quality of the existing community?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
4. Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

#2. The use intensity over the "current" use is large because the building previously located on this property has been demolished and the parking lot has deteriorated / disintegrated to gravel-like rubble. The current state of the parcel is empty and undeveloped. Prior to demolition, the property was occupied by a large commercial building and associated parking lot covering most of the available land. Compared to this pre-demolition use, the proposed development is an improvement in the use intensity as the new plan will incorporate much more green space and passive drainage design. In addition, the proposed project will renovate an empty gravel lot into a useful community function with upgraded sidewalks and community garden space. It is for these reasons that this impact is deemed not significant.

<input type="checkbox"/> Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.	
<input type="checkbox"/> Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

RESOLUTION AUTHORIZING THE STANDARDIZATION OF JOHNSON CONTROLS FIRE PROTECTION FOR FIRE ALARM EQUIPMENT IN ALL COUNTY BUILDINGS FOR THE DEPARTMENT OF PUBLIC WORKS

WHEREAS, subdivision 5 of § 103 of the General Municipal Law of the State of New York provides that, upon adoption of a standardization resolution by a vote of at least three-fifths of all members of the governing board of a political subdivision, purchase contracts for a particular type or kind of equipment, materials or supplies may be awarded after competitive bidding, and

WHEREAS, in addition, the resolution must provide that for reasons of efficiency or economy, there is a need for standardization and that a full explanation for such standardization is attached, and

WHEREAS, State procurement regulations require the County to consider "equivalent" brands of equipment unless a standardization resolution has been passed by the County Legislature, and

WHEREAS, the Department of Public Works has requested that for efficiency reasons a standardization resolution be passed to allow specific brands of fire alarm equipment be specified in competitive bids, to the exclusion of other brands, and

WHEREAS, the specific fire alarm equipment brand currently used by the Department of Public Works has passed rigorous testing and is in use in several county owned facilities, and

WHEREAS, the timeframe for the bidding process would become much longer should "equivalent" products be considered as they would have to be evaluated and that would lengthen the approximately 30- plus day period for bidding and cause unnecessary delays, and

WHEREAS, the Department of Public Works is requesting a standardization resolution for the following brand of Fire Alarm Equipment: Johnson Controls Fire Protection, and

WHEREAS, the standardization would apply to all Broome County owned facilities, now therefore be it

RESOLVED, that this Broome County Legislature hereby authorizes the standardization of Johnson Controls Fire Protection fire alarm devices for the Department of Public Works, and be it

FURTHER RESOLVED, that the County Executive or his duly authorized representative is hereby empowered to execute any such agreements, documents, or papers, approved as to form by the Department of Law, as may be necessary to implement the intent and purpose of this Resolution.

RESOLUTION AUTHORIZING A MEMORANDUM OF UNDERSTANDING BETWEEN THE COUNTY OF BROOME AND CORNELL COOPERATIVE EXTENSION FOR CARE AND MAINTENANCE OF THE FORGET-ME-NOT MEMORIAL GARDEN

WHEREAS, the following items have been agreed upon between Broome County Department of Public Works and Cornell Cooperative Extension (CCE) regarding operation and care of the Forget-Me-Not Memorial Garden located at 6-1/2 Sturges Street in the City of Binghamton, and

WHEREAS, Broome County agrees to increase Cornell Cooperative Extension's annual budget by \$5,000 to cover the cost of garden maintenance, and

WHEREAS, Cornell Cooperative Extension agrees to provide staff and materials for the annual maintenance and care of the garden beds and plant materials, now, therefore, be

RESOLVED, that this County Legislature authorizes a Memorandum of Understanding between the County of Broome and Cornell Cooperative Extension for care and maintenance of the Forget-Me-Not Memorial Garden as follows:

1. CCE will provide spring preparation of the garden beds including post-winter cleanup. This work will include but not be limited to removal of winter debris (leaves, sticks, litter, etc.), pre-season pruning / trimming based on plant material needs, and bed mulching as specified below.
2. Initial garden bed mulching design included placement of hardwood bark mulch at a thickness of 2-3 inches over all ground surfaces except the concrete walkway. The total lot area is approximately 138' X 36' resulting in a total mulch volume of approximately 45 tons (+/- 30 CY). CCE will assure sufficient mulch coverage to retain moisture and discourage weed growth. It will be the responsibility of CCE to purchase and place mulch on site as needed.
3. During the growing season CCE will monitor the garden planting beds as needed including periodic watering, weeding, and mulching. Water for garden use is provided onsite, CCE will need to provide hoses, sprinklers, etc.
4. At the conclusion of the growing season in the fall, CCE will provide end of season garden preparation and plant protection.

5. During this first year of the maintenance agreement (summer 2023), an initial onsite inspection will be performed by Broome County to determine what plant material did not survive the winter season. Because the garden is newly constructed, the site contractor is under warranty to replace plant material through this period (ending October 31, 2023). CCE will work through DPW to coordinate replacement of plant material under warranty. After this warranty period, replacement of plant material will be the responsibility of CCE under this agreement. The County would like plant material replaced in kind where possible, and/or anticipates that CCE will notify the County should material substitution be required.
6. Under this agreement repair and/or replacement of hardscape; including concrete walkways, benches, signage, and fencing will be the responsibility of Broome County. The County requests that CCE immediately notify the County should there be any damage to hardscape identified that requires repair. Additionally, CCE should notify the County if there are any additional vandalism issues noted that required attention by Broome Security (including illegal dumping).

RESOLUTION RECOGNIZING SOCK OUT CANCER AS A DISTINGUISHED STATEWIDE CHARITABLE ORGANIZATION ASSISTING THOSE WHO ARE BATTLING CANCER

WHEREAS, Sock Out Cancer is a charitable organization founded in 2017 by Security Mutual Life Insurance Company of New York under the leadership of Bruce Boyea, and

WHEREAS, Sock Out Cancer raises funds through the sale of multi-colored socks that represent all forms of cancer and by holding charity concerts to benefit cancer patients and assisting with expenses to make it easier for those who are battling the deadly disease, and

WHEREAS, the funds raised are distributed to the UHS Foundation and Lourdes Hospital Foundation to assist cancer patients and help pay bills, travel expenses and other non-medical-related costs including food and housing in Broome County, Albany County and across New York State so these individuals can focus solely on their health and fighting cancer, and

WHEREAS, Sock Out Cancer has continued to grow and prosper as an organization to hold more events and initiatives such as concerts, car parades, awareness nights at professional sporting events including the Binghamton Rumble Ponies, the Binghamton Black Bears and the Birdies for Cancer fundraiser held during the Dick's Sporting Goods Open PGA Tour Champions Event, and

WHEREAS, Sock Out Cancer has received local, regional, statewide and national recognition and was named the 2022 PGA Tour Champions Charity of the Year for being an outstanding organization that helps countless individuals who are fighting the battles of their lives, now, therefore, be it

RESOLVED, that the Broome County Legislature supports Sock Out Cancer and looks to raise awareness for the organization and encourages State, County and Municipal Governments throughout New York State and beyond to adopt this resolution and raise awareness for Sock Out Cancer, and be it

FURTHER RESOLVED, that the Clerk of the Broome County Legislature shall forward copies of this Resolution to Governor Kathy Hochul, Senate Majority Leader Andrea Stewart Cousins, Senate Minority Leader Robert G. Ort, Speaker of Assembly Carl Heastie, Assembly Majority Leader Crystal D. Peoples-Stokes, Assembly Minority Leader William A. Barclay, Senator Peter Oberacker, Senator Lea Webb, Assemblyman Joseph Angelino, Assemblywoman Donna Lupardo, Assemblyman Christopher Friend and the New York State Association of Counties.
