Caregiver Services

Caregiver Services helps family members, friends and neighbors who are caring for seniors living in our community. The program helps caregivers with both practical needs and with the emotional demands of caregiving. If you help an older person pay bills, manage medications, shop, cook, clean, or if you provide personal care, transportation or emotional support, you are a caregiver.

Caregiver Services provide:

- Consultations by phone, in our office, or in your home to help you understand local services and connect with programs.
- Workshops and educational events to provide support, education and connections with other caregivers;
- Caregiver Corner: a newsletter with information, tips, and practical advice;
- Caregiver Respite Program: respite care that gives caregivers and families a break from the demands of caregiving and helps them meet the daily challenge of caring for an elderly spouse or relative;
- Caregiver Chat: a support group for caregivers giving them the opportunity to share experiences with other caregivers and learn about caregiver issues;
- Resources: a variety of materials about caregiver issues
